

**The Springs at Santa Rita Homeowners Association
Infrastructure Report – January 9, 2024**

Pretty quiet for streets and buildings in the last month of the year.

Three TEP streetlights were repaired. And wouldn't you know it, another one went out last week on Crystal.

Tucson asphalt received the final payment on the paving project.

Bill Perry continues to keep an eye out for streetlight and sidewalk issues that can use some attention. I will provide a list of items that could be looked at this year.

Respectively submitted,

Mark Koruga
